

CAPSTONE PROJECT – THE BATTLE OF NEIGHBORHOODS REPORT

Deepa S. Wahane

Introduction

1. The City of Paris, is the most populous city in the United States. It is diverse and is the financial capital of France.
 2. It is multicultural. It provides lot of business opportunities and business friendly environment. It has attracted many different players into the market. It is a global hub of business and commerce. The city is a major center for banking and finance, retailing, world trade, transportation, tourism, real estate, new media, traditional media, advertising, legal services, accountancy, insurance, theater, fashion, and the arts in the France.
 3. This also means that the market is highly competitive.
 4. The insights derived from analysis will give good understanding of the business environment which help in strategically targeting the market.
- 
- A series of three parallel white diagonal lines in the bottom right corner of the slide, extending from the middle of the right edge towards the bottom left.

Problem Description:

1. A restaurant is a business which prepares and serves food and drink to customers in return for money, either paid before the meal, after the meal, or with an open account.
2. Its food culture includes an array of international cuisines influenced by the city's immigrant history.
3. Central and Eastern European immigrants, especially Jewish immigrants - bagels, cheesecake, hot dogs, knishes, and delicatessens
4. mobile food vendors - Some 4,000 licensed by the city
5. The city is home to "nearly one thousand of the finest and most diverse haute cuisine restaurants in the world", according to Michelin.
6. So it is evident that to survive in such competitive market it is very important to strategically plan.
Various factors need to be studied in order to decide on the Location such as :
 - Paris Population
 - Paris City Demographics
 - Untapped markets

Data

One city will be analyzed in this project : **Paris City**.

Data 1 : Neighborhood has a total of 5 boroughs and 306 neighborhoods. This dataset exists for free on the web. Link to the dataset is : https://geo.nyu.edu/catalog/nyu_2451_34572

Data 2 : Second data which will be used is the DOHMH Farmers Markets and Food Boxes dataset. In this we will be using the data of Farmers Markets.

Data 3 : For the below analysis we will get data from wikipedia as given below :
Paris Population
Paris City Demographics
Cuisine of Paris city

Data 4 : Paris city geographical coordinates data will be utilized as input for the Foursquare API.

Data Research and Preparation

Import the Paris District Data

1. Paris is divided into 20 Arrondissements Municipaux (or administrative districts), shortened to just arrondissements. They are normally referenced by the arrondissement number rather than a name
2. Initially looking to get this data by scraping the relevant Wikipedia page (https://en.wikipedia.org/wiki/Arrondissements_of_Paris),

1. Data Analysis

The Data Science Workflow for parts 3 & 4 includes:

Data Analysis and Location Data:

Foursquare location data will be leveraged to explore or compare districts around Paris.

Data manipulation and analysis to derive subsets of the initial data.

Identifying the high traffic areas using data visualization and statistical analysis.

Visualization:

Analysis and plotting visualizations.

Data visualization using various mapping libraries.

Discussion and Conclusions:

Recommendations and results based on the data analysis.

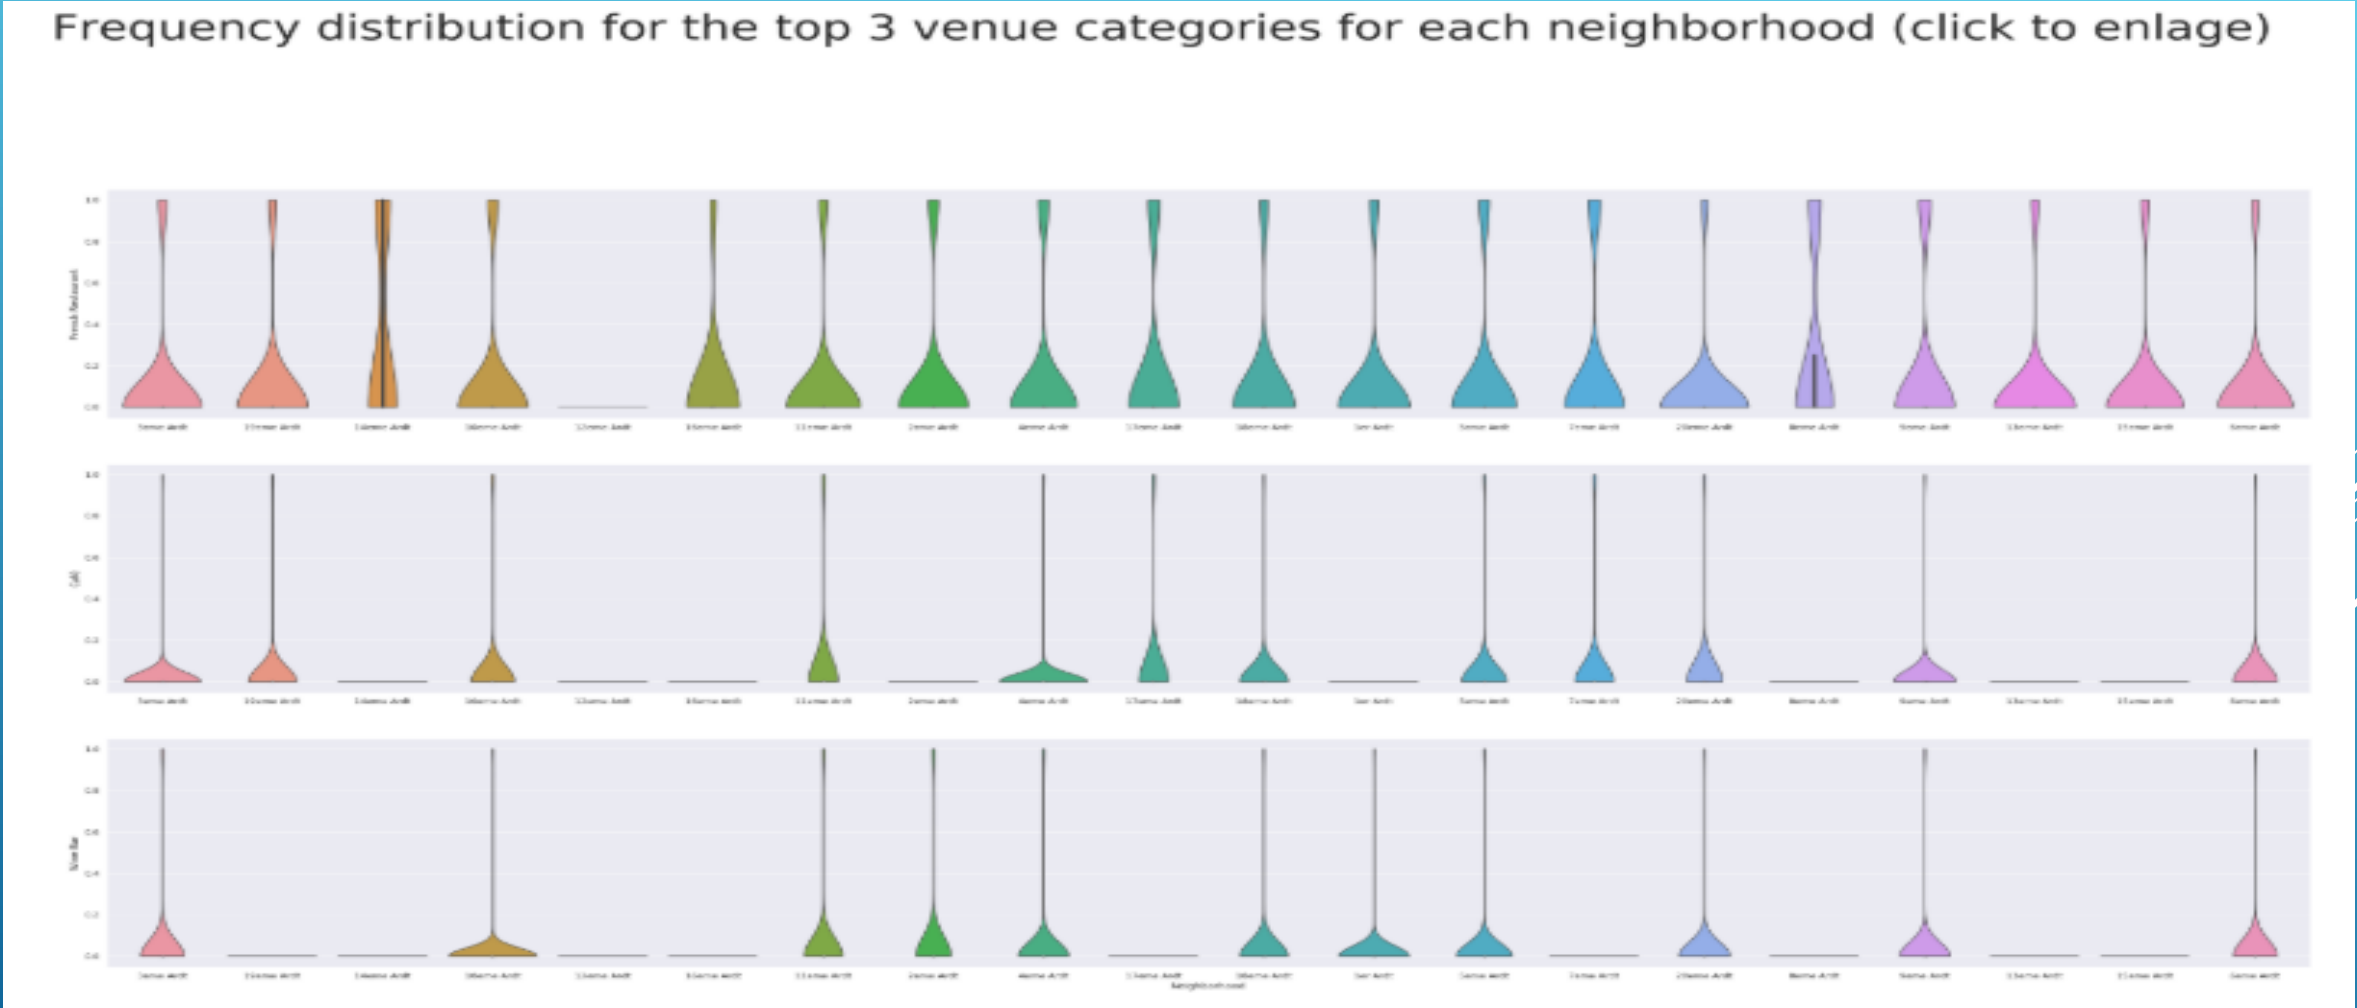

Discussion of any limitations and how the results can be used, and any conclusions that can be drawn.

The top 10 venue categories for each neighborhood

	Neighborhood	1st Most Common Venue	2nd Most Common Venue	3rd Most Common Venue	4th Most Common Venue	5th Most Common Venue	6th Most Common Venue	7th Most Common Venue	8th Most Common Venue	9th Most Common Venue	10th Most Common Venue
0	10eme Ardt	French Restaurant	Hotel	Coffee Shop	Café	Indian Restaurant	Bistro	Pizza Place	Japanese Restaurant	Bakery	Seafood Restaurant
1	11eme Ardt	French Restaurant	Café	Supermarket	Restaurant	Wine Bar	Pastry Shop	Italian Restaurant	Cocktail Bar	Bar	Bakery
2	12eme Ardt	Zoo Exhibit	Supermarket	Monument / Landmark	Zoo	Antique Shop	Argentinian Restaurant	Food & Drink Shop	Flower Shop	Fish & Chips Shop	Fast Food Restaurant
3	13eme Ardt	Vietnamese Restaurant	Asian Restaurant	French Restaurant	Chinese Restaurant	Thai Restaurant	Juice Bar	Coffee Shop	Park	Cambodian Restaurant	Cosmetics Shop
4	14eme Ardt	French Restaurant	Hotel	Bistro	Supermarket	Convenience Store	Bakery	Food & Drink Shop	Brasserie	Pizza Place	Sushi Restaurant
5	15eme Ardt	Hotel	Italian Restaurant	French Restaurant	Bakery	Coffee Shop	Lebanese Restaurant	Japanese Restaurant	Wine Shop	Park	Brasserie
6	16eme Ardt	Park	Plaza	Lake	French Restaurant	Boat or Ferry	Art Museum	Bus Station	Bus Stop	Donut Shop	Fast Food Restaurant
7	17eme Ardt	French Restaurant	Hotel	Italian Restaurant	Café	Plaza	Japanese Restaurant	Bakery	Wine Shop	Bistro	Pizza Place
8	18eme Ardt	Bar	French Restaurant	Hotel	Restaurant	Coffee Shop	Pizza Place	Convenience Store	Deli / Bodega	Seafood Restaurant	Café
9	19eme Ardt	French Restaurant	Bar	Supermarket	Hotel	Seafood Restaurant	Beer Bar	Bistro	Music Store	Coffee Shop	Steakhouse

Let's look at their frequency of occurrence for all the Paris neighborhoods, isolating the categorical venues

Frequency of Clothing stores for each neighborhood

Frequency distribution for the top 3 venue categories for each neighborhood (includes clothing)

Observations

I guess it's not a surprise that these districts are all very centrally located in the circular arrangement of Paris's arrondissements. Locations fitting the criteria for popular venues would normally be in central locations in many cities of the world.
